

ABSTRACT OF THE DISCLOSURE

A floor lamp with retractable shade to reduce storage or shipping space, the shade including multiple rings adhered with paper; a loop being provided at the center of the top support, a threaded rod being inserted through the loop
5 and locked with a nut; a lower lever on the base of the lamp being curved with an arc at its center to bypass the post and stretch up the shade by means of a press disk and a compression coil; the press disk being pulled up to be freed from the lower lever; the top nub being released to remove the shade; and all rings being folded in for reducing packaging space.
